

Freeze-Guard³ Poultry Drinker™

Installation Instructions

Customer Installed To Protect From Damage In Shipping

Patented Design

1 Open included water soluble non-toxic lubricant and dispense a small portion onto your finger.

2 Smear a small amount of lubricant onto upper body of the Freeze-Guard Poultry Drinker™.

3 Applying even pressure, force Freeze-Guard Poultry Drinker™ into pre-installed black rubber grommet until fully seated.

4 Showing properly installed Freeze-Guard Poultry Drinker™. Remove and reinstall using same method if you are taking your waterer out of coop.
