

1 Open included water soluble non-toxic lubricant and dispense a small portion onto your finger.

2 Smear a small amount of lubricant onto upper body of the Freeze-Guard Poultry Drinker[™].

3 Applying even pressure, force Freeze-Guard Poultry Drinker[™] into pre-installed black rubber grommet until fully seated.

4 Showing properly installed Freeze-Guard Poultry Drinker[™]. Remove and reinstall using same method if you are taking your waterer out of coop.
